Foreword

I take the opportunity with immense zeal and eagerness to introduce the book “*Role of Artificial Intelligence in Teaching, Learning and Research in Higher Education*” authored by various talented authors. This book explains the use of artificial intelligence in higher education especially for teachers, learners and researchers. The book focuses on introduction of AI, application of AI in higher education, emotional AI, automated grading and feedback, AI in higher education research, the authors very thoughtfully elaborated different AI tools and how to use them in the chapter “AI and AI Tools for Teaching”, ethics of use of artificial intelligence, impact of AI on higher education and application of AI in assignment preparation by learners and assessment by teachers.

The use of chatbots such as ChatGPT has been described in detail by the authors it was further concluded that if used with ethics intelligently the ChatGPT is a boon not only for learners but it is much useful for teachers and researchers also. The application of AI in day-to-day academic tasks such as admission, enrollment and examination has also

been highlighted by the authors. The utility of AI in pedagogy and lesson preparation by the teachers, application of AI in library, digital resources of the different ai tools have been explained in this book. The application of AI in higher education administration has been explained effectively by the author in the chapter “AI in Educational Administration and Management”. Not only this the holistic influence of artificial intelligence on higher education has also been explored by the authors

I am sure that this valuable book will serve it's very purpose to let the readers know how to use AI in higher education ?, about the current scenario of AI application in teaching, learning, research and importance of ethics in using AI along-with other areas of higher education and higher education research. I congratulate all the authors for their contribution in the book which is a valuable source for different stakeholders of higher education.

Dr. S.L. Sihag

Acknowledgement

First and foremost I avail this opportunity to thank Nirwan University Jaipur for providing all the courage, motivation and resources to accomplish the challenging task of producing the book “*Role of AI in Teaching Learning & Research in Higher Education*”. The constant encouragement, moral support and guidance of Hon’ble Chairperson made it possible to complete this book timely with good quality content.

I cannot express how grateful I am to the Hon’ble Vice Chancellor and Hon’ble Vice Chairperson for their advice and persistent support that have been invaluable during the completion of this volume.

I would like to express my heartfelt gratitude to the Office of the Hon’ble Chairperson, and to the distinguished OSD in particular, for their timely help during this endeavour. A particular thanks goes out to the esteemed COE, and Joint Registrar, whose commitment and skill have added significant depth and clarity of content to the chapters. Their suggestions have made a substantial contribution to the overall quality of this book.

I would also like to thank the Deans, Directors and Faculty Members, whose encouragement and support have been crucial in forming the contents of this book really meaningful and impressive. Finally, I want to express my

gratitude to the social media Team for spreading the word about the book and expanding its reach. Their efforts helped to increase participation and interest in the different AI topics covered.

The Nirwan University Jaipur community's combined efforts have made "*Role of AI in Teaching Learning & Research in Higher Education*" a relevant and collaborative endeavor. It demonstrates the University's commitment to creating a culture of excellence in academics. Thank you again for your constant support and encouragement during this journey. I am deeply appreciative for the collaborative attitude that characterizes Nirwan University Jaipur.

I would be negligent if I did not thank Prof. (Dr.) Ravi Kant Modi, Member Secretary, Publication Board, Nirwan University Jaipur, for his prompt and efficient assistance.

I am also thankful to Inspira publications for all the efforts and professionalism in carrying out this task efficiently.

Sincerely,

Prof. (Dr.) Pramod K. Raghav

List of Contributors

Pramod K. Raghav is currently Registrar at Nirwan University Jaipur. He is a seasoned professional of Food Process Engineering and has post Ph.D more than 22 Years of experience in research, teaching, academic administration and industry. His highest academic administration position was of President I/C (Officiating VC) prior to this current position. He has also served on positions of Pro-President (Pro-VC), Director Research and Dean for more than a decade and also served in various institutional committees in different roles, he is well versed with entire NAAC accreditation process and peer team visit in a leading role. *He is two times India Book of Record holder in 2021 and 2023.* He has been granted substantial funding from different govt., funding agencies as PI, he has more than 52 publications including Scopus Indexed and UGC Care publications, *his publications have 1,18,000 reads over the globe* with more than 500 citations. He has been a moderator, key note speaker, expert in several conferences, seminars, academic gatherings, higher education summits, webinars and have been recognized by several organizations of repute including recently in 2023 as Higher Education Influencer by My Award and Ranking, India, he also received Higher Education Leadership award -2022 by GISR Foundation, India

and Academic Leadership Award-2018 by International Institute of Organized Research India/Australia. He is also a Member of Global Harmonization Initiative (GHI), Austria, Vienna and Member Yale University Art Gallery, New Heaven, CT, USA.

Nakuleshwar Dut Jasuja, currently holding the position of Dean & Joint Registrar at Nirwan University Jaipur, boasts an illustrious academic career coupled with over 13 years of extensive experience in teaching, research, academic administration, and industry. His multifaceted professional journey has encompassed affiliations with renowned institutions such as the Indian Institute of Integrative Medicine (IIIM) and the University of Rajasthan. Prof. Jasuja has assumed diverse roles, exemplifying his commitment to academic excellence and institutional development. At Nirwan University, he has served as the NAAC Coordinator, Convenor of the NEP Committee, and a distinguished member of the Institutional Development Committee. His versatile contributions have played a crucial role in shaping the academic landscape of the institutions he has been associated with. Beyond his administrative roles, Prof. Jasuja has demonstrated his prowess in research and innovation. His prolific research output includes the publication of 85 articles in international journals of high repute, and he has been granted several patents, underscoring his significant contributions to the field. In recognition of his outstanding research work on environmental issues,

toxicology, and exposure science, Prof. Jasuja was honored with the prestigious Young Scientist Award in 2013. His dedication to advancing knowledge in the realm of Animal Science and Microbiology has not gone unnoticed. Prof. Jasuja received a Gold Medal from the Hon'ble Chief Minister of U.P. during the All India Congress of Zoology at B.B.A. Central University, Lucknow. His commitment to excellence, coupled with his extensive contributions, marks him as a distinguished professional whose impact extends across academia, research, and industry. This accolade stands as a testament to his immense contributions to these fields.

Ravi Kant Modi is currently working as an Professor & Dean in the Department of Commerce and Management, Nirwan University Jaipur, Rajasthan, India. He is a distinguished faculty member bringing with him an extensive 13 years of teaching experience. His contribution in research solidifies his position as a highly accomplished researcher and scholar. Beyond his academic accomplishments, He has also demonstrated his leadership skills as a Trained Associate NCC Officer since 2013, where he achieved the rank of a Captain. Additionally, he serves as a trained NSS officer and is actively involved in various community service initiatives. His dedication to research has been recognized through the prestigious Young Researcher Award, bestowed upon him on September 5, 2021. As an author, He has contributed to the academic community through his textbooks and edited books.

Moreover, he has published over 40 papers in renowned National and International journals, including notable Scopus journals. His expertise in research is further exemplified by his position as an editorial board member for reputable journals.

Alok Kumar Singh is presently working as an Associate Professor, School of Engineering and Technology at Nirwan University, Jaipur from 13 February 2021. He has more than 10 years of work experience at academic and administrative level. He awarded Ph. D. degree in 2022 M. Tech. from RTU, Kota in 2012 and B.Tech. in 2007. He has published 15 papers in international, national journals and conferences. He has attended several workshops, FDPs and STTPs. His major area of research is renewable energy system, solar PV system, energy management, power system stability, economics and pricing.

Email: alok.singh@nirwanuniversity.ac.in

Anju Gautam is a highly accomplished individual in the field of computer science, specializing in programming languages with a focus on areas such as Data Science, Machine Learning, Python, Data Structures, and Database Management Systems (DBMS). With a Ph.D. in Computer Science, she has made significant contributions to both academia and research. She is having 18 years of experience. Currently, Dr. Anju Gautam holds the position of Associate Professor and Head of the Computer Science Department at Nirwan University in Jaipur.

In addition to her academic roles Dr. Anju Gautam is actively involved in the academic community as a member of the organizing committee in a renowned computer science research journal. She had awarded with Star Excellence Award in July 2017. Dr. Anju Gautam has contributed significantly to the body of knowledge in her field through the publication of various papers in national and international journals. Her research interests lie in the area of data Science, Artificial Intelligence, Machine Learning and software Engineering. She has published in various reputed UGC Care journals. She has published 7 Books and one Indian patent.

Email: anju.gautam@nirwanuniversity.ac.in

Reena Anand, Head Librarian cum Associate Professor in School of Arts Humanities and Social Science has been working at Nirwan University Jaipur, Rajasthan since September, 2023. She has more than 7 years of teaching and 15 years experience of as a Library Professional at two renowned Universities. Reena Anand has done B.LIS and M.LIS degree from Rajasthan University while studying regularly. She has been awarded Ph.D. in Library & Information Science from University of Kota, Kota. She is qualified UGC NET conducted by University Grants Commission (UGC) and qualified SET conducted by Guru Govind Tribal University, Banswara. For the last 15 years, the author has been surrounded by books and has been studying library science and other fields while working as Library Professional. Keeping in view the increasing new dimensions of

information technology in library science, the author has passed the state-of-the-art courses CPDL, PGDLAN & PGDCA in the subject with good marks, standing first and in CPDL she got AIR2 Rank.

Email: reena.anand@nirwanuniversity.ac.in

Chetna Anand is currently engaged in pursuing Ph.D. from University of Rajasthan, Jaipur. She has two years of experience as a Librarian at two renowned institutions. Ms. Chetna has done M.Sc. in Chemistry, M.Ed. from University of Rajasthan and she has also cleared PGDCA with good marks. Ms. Chetna has published 5 papers in national and international journals. She has also attended various conferences, seminars, workshops and FDP's.

Kunjee Lal Meena is currently the HOD & Associate Professor at Nirwan University Jaipur since March 16, 2023. Prior to this, he served as an Associate Professor and Principal at the School of Woodworking Skills at Bhartiya Skill Development University (BSDU), Jaipur, from July 1, 2022, to February 10, 2023. He also held the position of Associate Professor & HOD of Mechanical Engineering at Dr. K.N. Modi University (NAAC Accredited), Newai, Tonk, from August 20, 2021, to June 29, 2022. Previously, he worked as an Associate Professor & Principal at Mahatma Gandhi Engineering College, Shivdaspura, Rajasthan, from January 1, 2020, to August 18, 2021. He has also worked as an Assistant Professor at JSS Academy of

Technical Education Noida NCR Delhi and IMS Engineering College Ghaziabad NCR Delhi. Dr. Meena's educational background includes a Ph.D. in Mechanical and Industrial Engineering from IIT Roorkee, an M.Tech. in Production Engineering from IIT Delhi, and a B.Tech. in Mechanical Engineering from NIT Bhopal. He completed his schooling from the Rajasthan Board. His research interests lie in the area of composite materials, specifically focusing on alumina-based ceramic composites with reinforcements of MgO/MWCNTs and ZrO₂ using novel spark plasma sintering (SPS) and microwave sintering (MWS) techniques. He has published in various reputed journals including SCI Journals, Scopus journals, and UGC Care journals. There are published 5 SCI Journals, 5 Book Chapters, 2 Scopus journals, and UGC Care journals in reputed journals.
Email: kunjee.lal@nirwanuniversity.ac.in

Chandresh Bakliwal is an Assistant Professor in the Department of Computer Science & Engineering, School of Engineering & Technology, Nirwan University, Jaipur. Mr. Chandresh Bakliwal is a seasoned professional with over twelve years of expertise in both the realms of Teaching and the IT Industry. His academic journey led him to attain an M.Tech. degree from Rajasthan Technical University, Kota, showcasing his commitment to advanced education and specialization. Rooted in a strong foundation, Mr. Bakliwal earned his B.E. degree from Maharana Pratap University of Agriculture and Technology, Udaipur, reflecting his dedication to

academic excellence. His diverse educational background serves as the bedrock for his multifaceted career. Specializing in areas such as Network Security, Artificial Intelligence, Machine Learning, Data Science, and Software Engineering, Mr. Bakliwal demonstrates a keen interest in cutting-edge technologies that shape the IT landscape. His passion for staying at the forefront of technological advancements has driven him to excel in these dynamic and rapidly evolving fields.

Email: chandresh.bakliwal@nirwanuniversity.ac.in

Rahul Kumar is presently working as an Assistant Professor, School of Engineering and Technology at Nirwan University, Jaipur from 04 April 2023. He has 1.5 years of working experience in academic level. He awarded M. Tech. in Structural engineering from National Institute of Technology, Uttarakhand in 2021 and B.Tech in civil engineering from Aryabhata Knowledge University, Patna in 2019. He has attended several workshops, FDPs and STTPs. His major area of research is concrete structure, fibre reinforced cement concrete.

Preface

The growth of artificial intelligence has created a fog of tales, misunderstanding, and fear among educators. This book, *Role of AI in Teaching Learning & Research in Higher Education* provides the precious information about the usefulness of AI in higher education in different fields. It has been very well explained by the various authors that AI is an instrument to be used purposefully inspite of a thinking that it is a threat to education. It's a fact that artificial intelligence (AI) offers the field of education both great prospects and problems but if used judiciously it provides tremendous opportunities to learners, teachers and researches in higher education. The chapters have been written keeping in mind the current scenario of application of AI in higher education. The authors have provided valuable insights based on their experience and exposure in easy-to-understand terminology and examples.

This book basically is focused on the detailed aspects and various methods, tools through which the AI can be efficiently used in teaching, learning and research in higher education. The various authors have very well written about the Artificial Intelligence, pros and cons of it's use in education, it's application in research, ethics of using AI, the use of popular tools like ChatGPT in learning and teaching. Not only this the AI application in pedagogy, assignments preparation by learners, lessons preparation by teachers, assessment, analysis, and educational

administration along-with the description of most popular AI tools specifically for teachers as well as learners have been explained very well by the authors. The multi-application of AI in education in prominent sectors such as examination, learning management systems, enrolment and retention, plagiarism detection, teachers lecture transcription and academic research are also covered by the authors in different chapters. Impact of application of AI in higher education, the use of AI in library, in science and technology research have also been highlighted.

I am hopeful that readers will be highly benefitted from this book and its contents in terms of acquiring knowledge about the role of AI in higher education. I am sure that this book will be very useful for students, teachers, researchers, officials, academic administrators and policy makers associated with higher education.

Prof. (Dr.) Pramod K. Raghav

Professor

School of Engineering & Technology

Nirwan University Jaipur, Rajasthan

Role of AI in Teaching, Learning & Research in Higher Education

I am feeling immense pleasure and gratitude to present this book “*Role of Artificial Intelligence in Teaching, Learning and Research in Higher Education*” to all esteemed readers, the entire book has eleven Chapters explaining the multifaceted role of artificial intelligence in current scenario in the higher education. The chapter “Application of Artificial Intelligence in Higher Education” explains the use of artificial intelligence in the current system of higher education in different areas from perspective students to completion of their academic journey and for teachers and researchers it’s a boon to sharpen their skills.

The chapter “AI and Higher Education Research” explains the application of AI in higher education research from problem formulation up to conclusion of research on different steps further the use of most popular Chatboat ChatGPT has been explained in the chapter “ChatGPT as a Learning Tool”. Further authors analyzed the impact of artificial intelligence on higher education in different sectors in the chapter “AI’s Impact on Higher Education

Teaching & Learning” The authors provided the detailed information of utility of AI in the chapter “AI in Teaching & Pedagogy”.

The artificial intelligence importance in day-to-day educational administration has been explained effectively and impressively in the chapter “Educational Administration & Management”. Further the valuable information and application of different popular AI tools along with the sources has been incorporated in this book in the chapter “AI & AI Tools for Teaching”. The AI actually effects the higher education holistically the helictical influence of AI has been explored by the author in the chapter “Exploring the Holistic Influence of Artificial Intelligence on Higher Education: An Investigation into Teaching, Learning, and Research”. There are opportunities as well as challenges in artificial intelligence for example ethics, accuracy, adaptability, customization, knowledge sharing and institutional culture are few of them, this aspect has been elaborated in detail in the chapter “The AI Education Revolution: Opportunities and Challenges”. AI can be integrated with various research processes an effort has been made to elaborate it in the chapter “Integration of Artificial Intelligence in the Study and Optimization of Composite Materials and Sintering Processes: A Comprehensive Review”

The utilization of Artificial Intelligence (AI) in libraries has emerged as a transformative paradigm, reshaping traditional library services and augmenting user experiences, the chapter “Use of Artificial Intelligence in Modern Libraries” explains in detail how AI is making the

libraries more user friendly with ease of access to books and better library management. The impact of AI on the higher education has been described in the perspective of existing setting in the chapter “AI’s Impact on Higher Education Teaching & Learning”.

The AI is impacting the higher education in bigger way and it is evident that the use of AI in higher education is revolutionizing teaching and learning and is more than simply a fad. AI is revolutionizing every facet of the educational process, from intelligent student support systems and tailored learning pathways to data-driven insights for educators and expedited administrative procedures.
