About the Editors....

Dr. Abhishek Rajpurohit is contributing to the intellectual tapestry of Entomology and Zoology fields for nearly two decades. Dr. Rajpurohit earned his doctorate from Jai Narain Vyas University, Jodhpur, Rajasthan in 2005. His expertise is particularly evident in his extensive body of research, including numerous contributions to international and national journals, as well as presentations at prestigious conferences, seminars, and workshops. Currently three dedicated research scholars are pursuing their Ph.D. under his insightful mentorship with one already having submitted her thesis. Dr. Rajpurohit presently serves as an Assistant Professor in the Department of Life Sciences and also holds the position of Assistant Examination Controller and Science Coordinator for Training & Placement Office at Lachoo Memorial College of Science and Technology, Jodhpur. He is also life member of the Indian Science Congress.

Mr. Robin Aseri stands as a dedicated Agriculture Research Officer (Entomology) at the Adaptive Trial Centre of the Rajasthan Government, stationed in Sumerpur (Pali). With a dynamic career spanning six years, he has emerged as a key figure in the agricultural landscape, relentlessly addressing challenges related to pest management. A proud alumnus of Lachoo Memorial College of Science and Technology, Jodhpur (affiliated to Jai Narayan Vyas University Jodhpur, Rajasthan), Mr. Aseri holds a Master's degree in Zoology with a specialization in Entomology. His academic prowess and commitment to the field are exemplified by his numerous contributions to international and national journals, where his research papers showcase a depth of understanding in applied entomology.

Ms. Preeti Choudhary, currently serving as a Senior Research Fellow at the Zoological Survey of India Desert Regional Centre, Jodhpur (Rajasthan), is a dedicated professional making significant strides in realm of Zoological Research and Education. A proud alumnus of Lachoo Memorial College of Science and Technology, Jodhpur, affiliated to Jai Narayan Vyas University, Ms. Choudhary holds a Master's degree in Zoology with a specialization in Entomology with more than four years of research experience in her credit and further having four years of teaching experience at Under graduate level under her belt. Ms Choudhary has not only excelled in academia but has also served as a Master-Trainer under para-taxonomy courses, including PBR (GSDP), at the Zoological Survey of India Desert Regional Centre, Jodhpur Rajasthan. She has published several research papers on Taxonomic Studies of different insect groups (Lepidoptera and Hymenoptera) from Rajasthan and Gujarat in National and International Journals of Repute. She is the Member of (IUCN) Wild Bee Specialist Group(WBSG) from India.
